

Chatbot Human Evaluation

Hello, I am Kelvin. This is a Google Form for the data collection for my Master's in Data Science project. I am building a chatbot for social media toxic messages.

In this form, each question is a Tweet. Each question (Tweet) has three options, which are the human response to the Tweet, the response from another study's chatbot and my chatbot's response.

Please pick the best reply (option) to each question (Tweet). If the Tweet is toxic/rude, your choice should be socially appropriate and unbiased response.
